PROJECTS

Mullet Events - <https://mullet-events.herokuapp.com/>

GitHub Repository - <https://github.com/cstuhlfire/EventPlanner.git>

Summary - This collaborative site application project allows users to create, manage, and sign up to attend events. The centralized planning tools of Mullet Events allow users to share the work of planning successful parties and events.

Role - Front and back end API/JSON handling, Front End Web Design

Technologies - MongoDB, Express.js, React.js, Node, Bulma Framework

Quizami - <https://quizami.herokuapp.com/>

GitHub Repository - <https://github.com/universaleric/Quizami.git>

Summary - This site was designed so that users can sign up, create a profile, and use the native web application to make quizzes for friends, as well as take quizzes others have made.

Role - Front End logic to coincide with defined databases, Designing UI/UX data parsing

Technologies - Handlebars.js, Sequelize, Node, Express.js, MySQL, Bootstrap Framework

Google Books Reading List - <https://googlebookstoread.herokuapp.com/>

GitHub Repository - <https://github.com/anth8nyc/booksearcher.git>

Summary - This MERN stack site application allows users to search the Google Books API and then save search results to a MongoDB database that is then rendered through a react state.

Role - Solo project aimed at exercising concepts & programs such as React, state, & API routing

Technologies - MongoDB, Express.js, React.js, Node.js, Bootstrap Framework

PROFESSIONAL WORK HISTORY / EXPERIENCE

Bar Manager

Drake's Hollywood - Dallas, Texas

10/2019 to 12/2020

A new concept helmed by Vandelay Hospitality Group of Park Cities that established itself as a classic upon opening.

- Analyzed data from managing, monitoring, and ordering the inventory of liquor, beer and wine for the restaurant, to contribute to the restaurant's success in earning over \$400,000 per month- 50-55% of which was garnered from liquor, beer, and wine sales.
- Established the Drake's Bar as a place to be- highlighted in multiple Dallas area restaurant magazines- by assisting in developing a consistent manner of managing operating procedures.
- Assisted in managing the restaurant at large- in daily operations, restaurant opening training, and standardizing a high level of service in a formal setting- to accomplish virtually no employee turnover within the first six months of being open.

Kitchen Manager

Pappas Restaurants Inc. (PRI) - Richardson, Texas

01/2016 to 09/2019, 01/2021 to Present

Pappadeaux Seafood Kitchen is the most popular concept of PRI's with a high volume, committed quality seafood operation.

- Actively observing and coaching 50 employees of varying positions from a 200 employee roster that varied from entry level to management roles during operation. Responsible for strategic scheduling with a mindful approach to individual development.
- Ensured food safety adherence as a ServSafe certified restaurant manager while monitoring kitchen staff on the proper culinary execution of all dishes in a fast-paced environment.
- **Floor Manager (before promotion)-** Monitored dining room staff of 20 to 30 employees in order to enforce adherence to company standards of excellence: superior product quality, exceptional service, and constant innovation.
- Maintained rapport with all guests by resolving any customer service issues quickly and efficiently to maintain the highest level of customer satisfaction to encourage higher levels of repeat patronage, for the \$200,000.00 profit a week restaurant.
- **Server/Expo Trainer-** Trained new servers on server procedures, proper serving etiquette, and necessary food knowledge per the restaurant expectations. Awarded best trainer consecutively before promotion to management.

EDUCATION

Certificate of Full Stack Coding & Web Development - Southern Methodist University

Bachelor of Science in Neuroscience - University of Texas at Dallas
